- ◆ Men's / Young Men's Sportcoats and Suits may use wishbone style wood or black plastic hanger (pant bar if needed) as per current agreement with Vendor Relations.
- ◆ Use a combination of the top and bottom hangers for all 2-piece Men's, Women's and Children's (over 5T coordinates / sets).
- ◆ Infants, toddlers and children's (2-6x Girls, 2-7 Boys) apparel, use GS1 U.S. white polypropylene hangers. Infants and toddlers should have size indicators, which are consistent with the GS1 U.S. standards for color size indicators.
- ◆ High quality re-used hangers (consistent with GS1 U.S. Hanger Standards for Floor Ready Merchandise) are acceptable.
- ◆ This listing is intended to be used as a general guide, if you have any questions regarding hanger compliance, call vendor relations at (937) 873-8288 Extension 3519. For overseas hanger offices, contact any of our approved hanger suppliers.
- ◆ Vendors who previously shipped merchandise on clear hangers are now required to ship on black matte hangers with SOH sizers. Black matte hangers should have a turn-able silver metal hook. The sizers should be black with white lettering.
- ◆ Intimates: 'innerwear' (bras, panties, and slips) are an exception from the new requirement and should remain on GS1 U.S. clear hangers.

The Bon-Ton Stores Hanger Standards are consistent with GS1 U.S. Standards for Floor Ready Merchandise, which The Bon-Ton fully supports.
